

**VIKING**

## How to baste in embroidery mode on the Husqvarna Viking #1+

1. To baste your fabric to the stabilizer, on your 1+, hoop your stabilizer.
2. Turn on your #1+.
3. Touch ON to turn on the Embroidery Unit.
4. Touch baste on the Sewing Advisor.
5. Touch the left arrow key, and hold in until the needle goes all the way to the left of the hoop and stops.
6. Touch the up arrow key and hold in until the needle goes all the way to the top/back of the hoop.
7. Touch Run/Start. The machine will stitch across the hoop and stop when it reaches the other side.
8. Touch the “E” once, and touch Run/Start again. The machine will stitch down the right hand side of the hoop and stop when it reaches the bottom.
9. Touch “E” again. The machine will stitch along the bottom to the left hand side.
10. When the machine stops again, touch “E” for the last time. Sew from the bottom left corner to the top left corner.
11. Select your design, and begin to embroider.
