- Linen (3" larger all the way around than your finished tablecloth)
- 60 wt. cotton thread to match linen
- 40 wt. rayon embroidery thread

1. Your linen has to be cut on grain. Pull threads to be sure that you are accurately on grain.
2. Measure in 3" from each corner as shown, and make a dot. Beginning at the dot, pull threads to the next dot. Don't pull the threads beyond the dots. Pull three to four threads total.

3. Thread with 60 wt. cotton thread to match your fabric top and bobbin.
4. Fold up the raw edge 1 1/2" to the wrong side and press.
5. Bring the fold of the edge to just meet the pulled threads.
6. Using your Quick and Easy Mitred Binding Tool miter the corners.

7. Snap on your Clear A Edge Joining Foot. Align the flange of the foot with the fold of the fabric.

Select Straight Stitch . Adjust the needle position to the right, so that the stitching will be just onto the fold as shown. Stitch the hem in place. Be sure not to cover up the pulled threads.

8. Insert a wing needle.

9. Select D1:6 . Adjust the Stitch Width to 2.5.

10. Touch Mirror Image Side to Side .

11. Touch Alt . Your stitch width is now Stitch Positioning. Touch the right arrow to adjust the position of the stitch to 2.0 to the right.

12. Snap on your Clear B Edge Joining Foot. Align the flange with the edge of the sewn hem and stitch the hemstitching.
