

Jewelry Bag

Sapphire 850/830
EXCLUSIVE SENSOR SYSTEM

Sewing supplies

- Gold satin fabric 11"x 6" (27x15 cm)
- Lining 11"x6" (27x15 cm)
- Thin batting 11"x6" (27x15 cm)
- 1 yd (1 m) of 1/4" (6 mm) wide blue ribbon
- 6"x6" (15x15 cm) scraps of green and grey organza
- Sewing thread to match the fabric
- Sulky metallic 30, silver and gold embroidery thread,
- Swarovski crystals 500000928 USA #12402
- Decorative touch applicator 500000931 USA #7104E
- Pictogram Pen

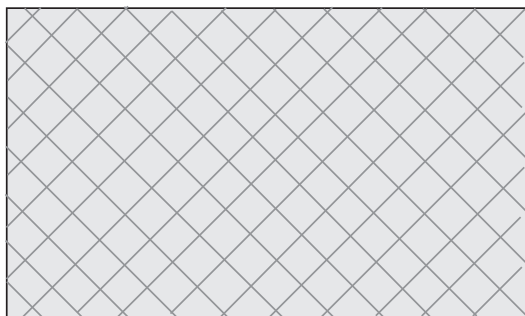

You can find these and many other accessories in the Husqvarna Viking Accessory User's Guide or on our website www.husqvarnaviking.com, for purchase at your nearest Husqvarna Viking Dealer.

Cut:

1/4" (6 mm) seam allowance are included.

Cut one piece 11"x 6" (27x15) cm from the gold fabric, lining fabric and batting.

Using your Pictogram Pen, draw diagonal lines 1" (2,5 cm) apart on the gold fabric. Draw diagonal lines the same distance apart in the other direction to form diamonds.

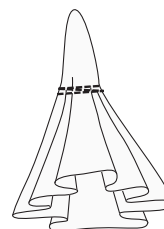

Decorate the bag:

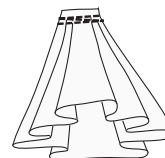

Place the gold fabric on top of the batting. Thread your machine with the gold metallic thread. Choose a serpentine seam, for Sapphire we have used menu 2 stitch 13. Sew along the lines in both directions.

Make the flower:

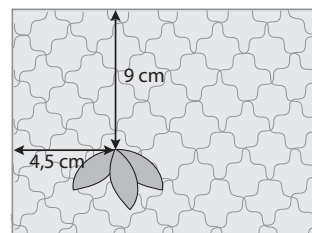

Cut a circle from the grey organza about 4 1/2" (12 cm) diameter. Pinch in the middle and fold together.

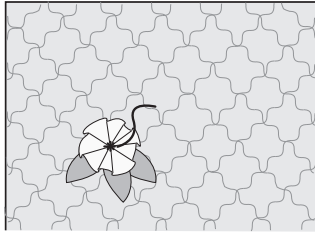

Sew 1" (2,5 cm) from the upper edge. Cut away the center part.

Cut leaves about 2" (5 cm) long from green organza. Place the leaves according to the layout and sew in place using the fix function.

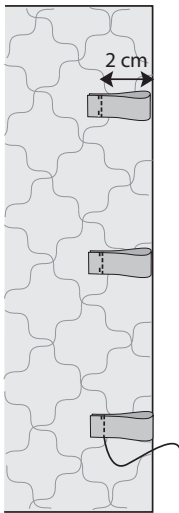

Program a stitch sequence (following the instruction in your users guide). For Sapphire we have used a star, menu 3 stitch 35 with a fix and selected thread cutter. Rethread your machine with the silver metallic thread. Open up the flower, place it on top of the leaves and sew the flower in place with the programmed stitch.

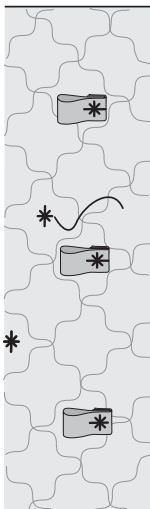

Make the loops

Cut 6 pieces of the ribbon each 2 1/2" (6 cm) long. Fold the ribbons to the half. Place the ribbons according to the layout.

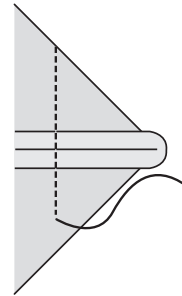

Sew the ribbons in place with a straight stitch 3/4" (2 cm) from the edge. Fold the loops downwards and finger press. Sew one programmed star on the upper edge of each ribbon to tack them down.

Embellish the squares by sewing your programmed star randomly throughout the fabric.

Sew

Rethread your machine with sewing thread top and bobbin to match the fabric. Fold the piece lengthwise, right sides together, to measure 5 1/2" x 6". Sew with a straight stitch. Square up the bottom by folding the side seams against the bottom, finger press and sew across the corners 5/8" (1,5 cm) from the tip.

Sew the lining together in the same way but leave an opening in the side seam.

Place the lining inside the bag, with the right sides together and sew with a straight stitch around the top edge. Turn right sides out and press. Close the opening in the lining with a straight stitch. Decorate your jewelry bag with beautiful Swarovski crystals. Use the Decorative Touch Applicator for easy application onto the bag.

Pull the rest of the ribbon through the loops and tie in a bow.
