

Steering Wheel Muff

Sewing Supplies

- 8" (20 cm) fake fur fabric wide as the circumference of steering wheel
- 26" (65 cm) stretch band, 3/8" (1 cm) wide
- Sewing thread

CUT

Measure the circumference on the steering wheel in your car. Cut a 7 1/2" (19 cm) wide piece in this length + 3/8" (1 cm) seam allowance. Place the short ends right sides together and stitch to a ring. Cut the stretch band in two and stitch together to two rings.

SEW

Snap on presser foot A. Thread with sewing thread on top and in the bobbin. Select straight stitch. Turn under a 1 3/8" (3.5 cm) wide hem on each side. Place the stretch band inside and stitch in place. **Illustration A.**
