

Candlewicking Stitches for Designer SE

1. Go to www.husqvarnaviking.com. Click on USA.
2. Click on Sewing Machines, Designer Updates.
3. Under the heading, Candlewicking stitches for the Designer SE, Click on the link to download the new stitches zip file to your desktop. Use a file compression utility (WinZip or similar) to unzip the downloaded file onto your USB-stick. The USB-stick should contain ten stitch files after a successful download.
4. At your Designer SE. insert your USB-stick.
5. Go to File Manager.
6. Select your USB-stick. Touch Open. If the stitches are in a folder, highlight the folder, and touch to open.
7. Click on the first stitch and click on LOAD.
8. The stitch will appear on the screen.
9. Touch the Save to My Stitches Icon. When the screen opens, touch the first empty space in your U Menu. The stitch will be saved in that space.
10. Repeat for each of the remaining stitches, selecting a new empty space each time.
11. NOTE: Be aware that when you update your Designer SE, the stitches you saved in your U menu will be deleted. Before updating, save the stitches on the hard drive of your computer, so you can put them back on the U Menu if desired. You can also simply access the stitches from your USB-stick, if desired, instead of saving them on your Designer SE.
