

Designer Diamond Technique Step by Step #1 - Design Positioning

1. Select Embroidery Mode. Touch

2. Slide on the embroidery unit.

3. Touch Ok to Calibrate

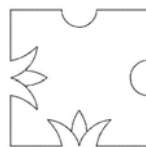

4. Touch the Start Menu to open the Extended Tool Bar.

5. The Design Menu opens

6. Touch design shown,

DD_58.vp3.

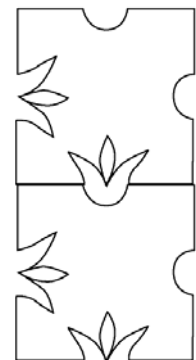

7. Touch Select Hoop.

Select Crown Hoop size 260 x 200

8. Use the stylus on the Ultimate Interactive Screen to drag the design to the upper left corner of the hoop area on the screen.

9. Using Tear-A-Way stabilizer underneath, hoop an 18" square of fabric with Tear Away Stabilizer. Slide on the Crown Hoop.

10. Touch GO! to go to Embroidery Stitch Out. 

11. Touch Start/Stop to embroider the first design. 

12. When the design is finished, a pop-up message will appear “Embroidery is finished. Clear screen?”

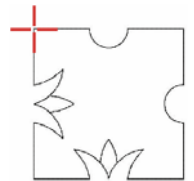

13. Touch Cancel to retain the design on the screen. 

14. Touch Design Positioning 

15. Touch Step 1 (the flower icon indicates you are watching your screen, not the hoop)

16. Move the red cursor to the upper left corner of the design to position the first locked point.

17. Touch Pan  Bring corner of the design with the cursor to center of the hoop.

18. Use Zoom In to see to see the exact point where the designs will meet. 

19. Use Pan and drag on the screen until you see it. 

20. Touch Position to turn off Pan. 

21. Continue moving the red cursor to the exact point where the designs will meet.

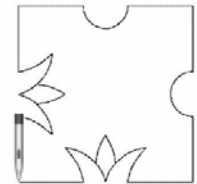

22. Use the Control arrows to fine tune the placement.

23. Touch Zoom to Hoop to view design. 

24. Touch Step 2, the cursor is now locked. (The hoop icon tells you to look at your fabric, not the screen) 

25. Move the locked point on the screen by using the stylus or the Control arrows. The hoop moves. Watch the hoop move and continue to move the locked point on the screen until the needle is over the lower left hand corner of the embroidered design on the hooped fabric. This is the second locked point

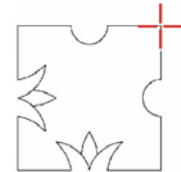

26. Use the arrows to fine tune the placement. Lower the needle into the lower left corner of the first design to check placement.

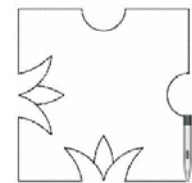

27. Raise the needle back to the highest position.

28. Touch Step 3 

29. Use Zoom + , Pan and the Control arrows to help you as you place the red cursor on the upper right corner of the design on the Ultimate Interactive Screen as shown.

30. Lower the needle into the lower right corner of the first design to check placement.

31. If the needle is in the correct point in the design, touch OK to begin embroidering.

32. If more adjustment is needed, touch Step 4 to rotate design into position. 

33. Watch the hoop move and rotate if needed until the needle is above the fabric exactly where you want it. Use the stylus or Control arrows to rotate design into the exact position.

34. Touch OK to go to Embroidery Stitch Out.

OK

35. Touch Start/Stop and embroider the second design.

START
STOP

36. Repeat Design Positioning for more designs in this hooping or re-hoop the fabric and use Design Positioning to match other designs.
