

Appliqué Hat By Kait Stuebner

Supplies:

- Any type of hat you would like to test your creativity on
- A piece of fabric with a design or pattern to appliqué on the hat
- A piece of Steam-A-Seam as large as the fabric design you are using
- Embroidery thread for decorative stitching

Directions:

- 1.) Place Steam-A-Seam sticky side down on the back of your fabric and iron on.
- 2.) Cut the fabric in the pattern or shape you would like to place on your hat.
- 3.) When the shapes are cut out, peel the paper backing off and place on your hat.
- 4.) To set the pieces, cover with an ironing cloth or another piece of fabric and iron down.
- 5.) Once the pieces are in place, use your sewing machine and embroidery thread to free-motion stitch over or around the pieces. This will not only look decorative, but will hold the appliquéd pieces in place.
