

Create Your Own Appliqués

By:
Julie Mallory
Embroidery Software Education

Around the holidays, few sewers have time for big projects! Create quick appliqué designs with your 4D Software to make your own holiday stockings, wall hangings or gift tags easily!

Supplies:

Husqvarna Viking 4D Embroidery Extra and your Husqvarna Viking Embroidery Machine

Create the Embroidery

1. Open 4D Embroidery Extra
2. Click Preferences . Set the Grid Size to 10 mm, make sure Remove Overlap When Combining Embroideries is checked and Check Spelling is checked then click OK.
3. Click Hoop . For Hoop Group, choose My Hoops. For Hoop Size, click the drop-down arrow and find 100mm x 100mm Standard Hoop. Set the Orientation to Vertical and click OK.
4. Click Express Design Wizard and the wizard will open up.
5. Choose Create Express Border and click Next.
6. On the Choose Picture page, click View Picture. Browse to C:\4DEmbroidery\Samples\4DEmb\Pics2\Holidays. Click Page Down twice and choose the star design ICHo011.png and click Next.
7. Do not rotate it, just click Next.
8. On the Monochrome Threshold page, make sure you can see the entire star, and click Next.
9. On the Crop Picture page, it is cropped correctly, just click Next.
10. On the Express Borders Options page, click Applique for the Border Type.
11. Click Options. At the bottom, choose the second Method – Running Stitch – Stop – Double Stitch – Stop – Satin.
12. Set the Satin Density to 5, the Satin Width, Running Stitch Length and Double Stitch Length to 2.0mm.
13. Remove the checkmark from Underlay then click OK.
14. Change the Thread Color by click on Change Color and select a color to match your project then click OK.
15. Click Next and your appliqué design has been created then click Finish.
16. Click Send to send the design directly to your Husqvarna Viking Designer SE Limited Edition, your Husqvarna Viking USB Embroidery Stick, d-Card or embroidery card.
