

Sheer to Fabric

Create a fun three dimensional effect on a foundation fabric.

YOU NEED:

- White wool foundation fabric
- Scrap pieces of organza in different colors. Experiment with other sheer fabrics for creative effects.
- Fabric scissors
- Husqvarna Viking® ER10™ Embellishing Machine

CUTTING

Cut a flower shape in different colors of organza. Cut out different sizes for the petals and a small circle for the center.

EMBELLISH/PUNCHING

Place the organza flower pieces and/or petals on top of each other on the right side of the white wool foundation fabric. Start to needle felt the fabrics together in the center and continue moving outward until the sheer fabric is securely needle felted to the foundation fabric.
