

Secure Remote Assistance via the Internet Virtual Assist

You do not need to set up StitchLink by yourself. We can do it for you.

silex Virtual Assist is our way of helping you get your StitchLink up-and-running quickly and easily. It allows our technical support specialist to access your PC remotely via the Internet to conduct the setup, or walk you through the configuration process step by step in a tutorial way. It is the ultimate product setup experience !

Still have questions? Contact us today to learn more about Virtual Assist :

EU:silex technology europe GmbH **USA: silex technology america, Inc.**
