

Embroidered Top

Designed and created by Lena Mattsson & Karin Larsson

The design on this top is included with your Designer SE. You can find the designs on your Embroidery Stick and combine the Simply Excellent flower pattern directly on your Interactive Designer screen.

Sewing Supplies

- Husqvarna Viking Designer SE
- 1 yd (1 m) of blue acetate or thai silk fabric
- 1 yd (1 m) of blue lining fabric
- Sewing thread
- Metallic embroidery thread
- One 8" invisible zipper (20 cm)
- Pattern for Top

Optional Husqvarna Viking Accessories

- Template Pen (412 49 06-01)
- Pictogram Pen (412 08 38-48)
- Husqvarna Viking Tear Away™ stabilizer (141 00 05-43)
- Embroidery Needle (412 40 22-01)

CUT

Use your favorite pattern for a top. Trace the pattern pieces on the fabric and cut out approx. 4" (10 cm) outside the markings.

EMBROIDER

There are four embroidery designs on your Embroidery Stick. Combine these designs into the Simply Excellent Flower pattern on your Designer SE Interactive Designer screen. (see step-by-step instruction on your Designer SE Instruction CD and in your Handbook). Save the design on your Embroidery Stick or transfer the design to your computer through the USB Cord. Open the design in the Husqvarna Viking 3D Embroidery software program, and print out.

To position the pattern on the fabric, place the large placement template on top of the printed design and trace it on to the template with a Template Pen. Place the template on your fabric and mark hooping position with a pictogram pen in the openings in the template. Hoop the fabric with stabilizer underneath. Insert an Embroidery Needle and embroider.

Hint: To make it easier to position the markings on the fabric with the guide markings on the hoop, just hoop the stabilizer, place the fabric on top and use the FIX function to baste the fabric to the stabilizer.

Tear away the stabilizer when the embroidery is finished. Use the template again to position the design. Repeat above until you have embroidered all pieces.

SEW

Cut out the top pieces accurately with seam allowance as instructed on your pattern and finish the top according to the pattern instruction.
