- Striped cotton fabric as called for in pattern
- Interfacing
- 1 button
- Sewing thread
- Husqvarna Viking Tear-A-Way™ stabilizer
- Burda pattern 3684 for hat
- Optional:

CUT & SEW

Cut and sew the hat according to the Burda pattern instruction.

To sew the topstitching on the brim, select straight stitch and snap on presser foot A. Sew the first row 1/4" (6 mm) from the edge. Adjust needle position to the left and follow the previous row of stitching with the edge of the presser foot to sew the next row of stitching. Sew all over the brim.

Sew on a button on the underside of the brim. Fold up the brim.

(To sew on buttons, lower the feed teeth and remove the presser foot to use the ankle only. Select zigzag. Tape the button in place. Place the fabric and button under the ankle and lower it on the button. Check the stitch width with the handwheel and sew).
