CREATE A STITCH PROGRAM AND EMBROIDER

Let's start by creating a stitch program in Embroidery Edit, which will be used to decorate your front center piece.

Slide on your HUSQVARNA VIKING® Embroidery Unit. Go to embroidery mode. Start by selecting the DESIGNER™ Royal Hoop. Select stitch D1:7. Keep touching D1:7 until the row measures 220mm. Click OK. The stitch row will automatically be placed in the center of the hoop area. Use the arrows to position it 15mm (+15) to the right of the center line. Touch Duplicate to create a second row. Position it 15mm (-15) to the left of the center line. (See illustration 1.)

Ill.1

Next select stitch N1:20. Touch and hold the Duplicate function and enter 17 to create a 216mm long row of hearts. Click OK. Position the row of hearts 25mm (+25) to the right of the center line. Duplicate and position the second row of hearts 25mm (-25) to the left. Make sure the rows of hearts are positioned at the same height as the first two rows. Touch GO. Thread your DESIGNER RUBY *deLuxe*™ sewing and embroidery machine with a decorative bronze metallic thread and white embroidery bobbin thread in the bobbin.

Hoop a layer of Tear-A-Way Stabilizer in the Royal Hoop. Place your fabric in the middle of the hoop. Touch “Baste in Hoop” to secure your fabric. Touch Start/Stop to embroider your stitch program.

Once all the embroidery is done, cut the center piece down to a 3¾"x8" (10x20cm) piece.

DECORATE

Re-thread your DESIGNER RUBY *deLuxe*[™] sewing and embroidery machine with a decorative thread matching your fabric. Use your Pictogram Pen to mark the placement of eight buttonholes along the center line.

Select Woven Medium and Buttonhole from your exclusive HUSQVARNA VIKING[®] SEWING ADVISOR[®].

Using your HUSQVARNA VIKING[®] Sensor One-Step Buttonhole Foot, sew all eight buttonholes. Use your seam ripper to open up the perfectly balanced buttonholes.

To create your own “lace” to attach to both sides of the center piece, fold the 3"x8" (8 x 20cm) long strips of silk duchesse to form two 1½" x 8" (4x20cm) strips. Re-thread with silver thread. Using the scallop H1:13, sew along the open side of the long strip. Cut away excess fabric outside of the scallop. (See illustration 2.)

Ill. 2

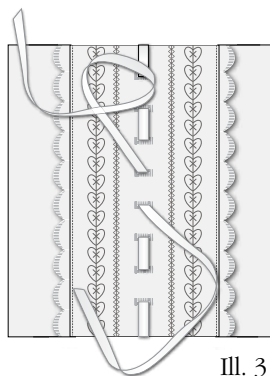

Snap on the HUSQVARNA VIKING[®] Join and Fold Edging Foot. Re-thread with a silver metallic thread, select Seam in the Exclusive SEWING ADVISOR[®] and attach the “lace” to the sides of the center piece.

ASSEMBLE

Snap on the HUSQVARNA VIKING[®] Invisible Zipper Foot and attach the invisible zipper in the center on the backside.

Cut your silk ribbon in two 32" (80cm) long pieces. Insert the silk ribbons in the buttonholes. Use a pin to hold them in place in the center of the fabric so you won't risk catching them when assembling the pillow.

Place the decorated center piece on top of your front piece. Pin in place. (See illustration 3.)

Ill. 3

Place the back and front right sides together. Pin. Leave the zipper open about 1" (2,5cm) in order to be able to turn the pillow inside out afterwards. Select Seam from your Exclusive SEWING ADVISOR[®]. Snap on your A foot and let the presser foot follow the fabric edge.

Turn your Ring Bearer Pillow right sides out. Press.

Finally, tie your ribbon ends into a bow in the very center of your beautifully created “I Do Forever” Ring Bearer Pillow.

You're ready and you're now one step closer to your big day!
